

`report_emp`

```
graph LR; report_emp[report_emp] --> earnings[Employee::earnings]; report_emp --> print[Employee::print];
```

The diagram illustrates a flow from a function named `report_emp` to two different output components. The `report_emp` function is represented by a grey rectangular box on the left. Two blue arrows originate from the right side of this box. The upper arrow points to a white rectangular box containing the text `Employee::earnings`. The lower arrow points to another white rectangular box containing the text `Employee::print`. All boxes have a black border.

`Employee::earnings`

`Employee::print`
