

`weekly.h`

```
graph TD; weekly_h[weekly.h] --> employee_h[employee.h]; weekly_h --> iostream[iostream]; employee_h --> iostream;
```

The diagram illustrates the dependencies between three C++ header files. At the top is a grey box labeled `weekly.h`. Below it to the left is a white box labeled `employee.h`. At the bottom is a white box labeled `iostream`. A blue arrow points from `weekly.h` to `employee.h`. Another blue arrow points from `weekly.h` to `iostream`. A third blue arrow points from `employee.h` to `iostream`.

`employee.h`

`iostream`
